Please rate your satisfaction with the content of the Student Development Program (SDP)

2.	The SDP deliver the information I expected to receive.	70	118	20	1
3.	The subject matter was presented effectively.	86	103	17	3
4.	The pace of the SDP was satisfactory.	76	103	24	6
5.	The Duration of the SDP was sufficient for the material covered.	48	94	48	19
6.	I plan to apply what I learned in this SDP.	82	106	18	3
7.	Further do you require to conduct a similar kind of SDP.	194	14		
8.	Any Suggestions	<ul style="list-style-type: none"> a. Use of different IDE/Compiler instead of Turbo C++ b. Need materials and more basics explanation c. Still time should be required to learn more and efficiently d. It's very good workshop and I learnt very much here e. Nothing if can assign well experienced staff f. It will boost our confidence Conduct again in 4th semester g. Time limit to understand a language for beginners is too less. Hope next time the workshop be conducted with sufficient time. h. It would be very useful if SDP duration was 10 days. Both practicing as well as completing syllabus would have gone parallel in balanced way. But 6 days of duration felt that completion of syllabus became 1st priority & lot of rushed Programming cannot be learnt so soon or quickly but to be learned by conducting SDP our basics improved a bit & got some good knowledge & improved confidence in programming. i. The training program should contain new things and need to be taught effectively. 1 week of time is very less to learn even the basics of coding. we need to have regular 2 hours of coding and researching so that we get the habit of writing effective code and we get to learn the debugging techniques ourselves. Making it more interactive and verifying all the students got the concept understood.
